About Us

Speech and Language UK is dedicated to supporting children and young people with speech and language challenges. Our mission is to ensure that every child can develop the necessary skills to face the future with confidence. Challenges with speech and language affect around 1.9 million children in the UK – or 1 in 5 children - making it a significant issue that impacts various aspects of a child's life, including their academic progress, emotional well-being, and future opportunities.

We work to raise awareness about the challenges faced by children with these challenges. We provide expert advice, tools, and training to families, educators, and other professionals to help spot and support children who struggle with talking and understanding words. This includes offering free resources on our website, running a free advice line, and creating interventions and training programmes to equip educators from early years to secondary schools.

In addition to providing resources, we play an important advocacy role. We speak out so that policymakers and government bodies know the scale and impact of speech and language challenges today.. Through our campaigns and reports, we strive to influence national policy and funding decisions, so that speech and language support is a priority. We also run two specialist schools and services for children with more complex challenges. These schools provide tailored education and therapy to help children with speech and language to develop their communication skills in a supportive environment. The curriculum is codesigned by speech and language therapists and teachers, so that speech and language development is at the heart of every classroom and every lesson.

By combining direct services, training, advocacy, and research, we play a vital role in improving the lives of children and young people with communication difficulties, empowering them to reach their full potential.

What does Speech and Language UK do?

×↑ √×	Provide innovative tools and training to schools and nurseries	Our Talk Boost series is proven to help children who face challenges talking and understanding words catch up with their peers. Every year, we train thousands of early years staff and teachers in how to educate children with these challenges.
	Give advice and guidance for families	Our family support services include our free advice line, webinars, a digital progress checker and assessment centres. We want to provide more advice directly to young people.
	Push for policy change	We conduct research with young people, families and teachers about the realities of living with a speech and langauge challenge. We create policy solutions from their and our experiences and we advocate these to Government and all political parties.
EAB	Generate practice from our two special schools	Our two special schools improve hundreds of children's lives each year and we use them to generate practices that other schools can replicate to change more young lives.

Our organisational values

We are brave

Too many children are struggling with talking and understanding words - we have a duty **to be brave in creating new solutions and speaking out** to change their futures.

We are kind

Every child and family we work with and everyone who works here has unique circumstances - showing kindness and empathy to each other **allows us to help and understand each other better**.

We are curious

Being curious about what works **to change children's futures and make our charity work better** will mean we can change more young lives sooner.

We are practical

We create practical solutions that can **change children's futures in the real world today** – because children shouldn't have to wait for change.

We are collaborative

So many children's futures are at risk, no one organisation or one team can make enough of a difference alone – **we have to collaborate and work together**.
